

Air Filters and Severe Environments

OE

GOLD

ACDelco GM OE and Gold Cabin and Engine Air Filters are specifically engineered to help provide cleaner air from the outside into the vehicle.* (Some ACDelco Gold parts formerly appeared as ACDelco Professional).

*****Cabin and engine air filters need to be changed more frequently than normal service intervals in high contaminant environments******

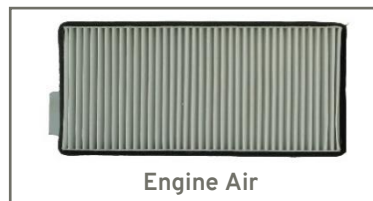

KNOW THE SIGNS OF A BLOCKED FILTER

ENGINE AIR FILTER

- Reduced fuel economy
- Reduced engine peak power

CABIN AIR FILTER

- A clogged cabin air filter reduces the efficiency of the heating and cooling system for the car interior, which may result in reduced air flow, window fogging or odors

*Recirculating air or air entering the vehicle through means other than the fresh air inlet is not filtered by a cabin air filter.

SEVERE SERVICE INTERVALS

Severe Maintenance Schedule	36000 km	72000 km	108000 km	144000 km
Cabin Air Filter (1)	X	X	X	X
Engine Air Filter (2)		X		X

1. Or every two years, whichever comes first. More frequent passenger compartment air filter replacement may be needed if driving in areas with heavy traffic, poor air quality from wild fires, or high dust levels.
2. Or every four years, whichever comes first. If driving in dusty conditions, inspect the filter at each oil change or more often as needed.

*For a complete list of maintenance service intervals, reference the vehicle owner's manual

12 Month/20,000 KM Limited Warranty: Our most common Parts Warranty offers coverage on the majority of our Genuine GM Parts and ACDelco service replacement parts. Effective on parts purchased February 3, 2020 and later to the original retail purchaser. Contact your ACDelco part supplier for limited warranty part details and qualifications.
