

# Disc Brake Calipers

OE

GM Genuine Parts Original Equipment (OE) Brake Calipers give you the peace of mind that comes with knowing that GM engineers spent many years developing, testing, and validating the brake calipers on GM vehicles.

## OE QUALITY

- OE brake systems and components are required to meet Federal Motor Vehicle Safety Standards (FMVSS) and are specifically designed to work with GM vehicle safety systems, such as electronic traction control and anti-lock brakes
- ALL OE brake calipers are extensively validated for: Hydraulic leak, vibration and torque fatigue to meet GM minimum expectations for durability

## OE CALIPER COMPONENTS FOR SERVICE

- OE brake mainstream and high-performance calipers are usually serviced at a caliper component level. Caliper components, such as pins, seals, boots, pistons, etc. are validated with the OE brake caliper assembly to meet GM durability, corrosion, and sealing requirements
- OE brake mainstream caliper components are often finely tuned as part of a caliper assembly to balance many performance attributes
- By utilizing OE caliper components to service an OE caliper, your customer can expect that the caliper assembly will function to the high level under which it was validated by GM

## MAINSTREAM BRAKE CALIPERS

- GM Genuine Parts OE mainstream iron brake calipers have class-leading corrosion protection with many recent designs utilizing zinc-nickel plating to prevent cosmetic and functional corrosion failures
- Aftermarket parts do not have to meet GM engineering requirements for durability, corrosion protection or paint quality

GMC Terrain Caliper

Chevrolet Silverado 1500 Caliper Piston Kit

Chevrolet Traverse Caliper

For a complete up to date list of parts, go to the electronic parts catalog or [acdelcocanada.com](http://acdelcocanada.com)

36 Month/ 60,000 KM Limited Warranty: Our most common Parts Warranty offers coverage on the majority of our Genuine GM Parts and ACDelco service replacement parts. Effective on parts purchased February 3, 2020 and later to the original retail purchaser. Contact your ACDelco parts supplier for limited warranty part details and qualifications.

- ALL OE brake calipers are extensively validated for: Hydraulic leak, vibration and torque fatigue to meet GM minimum expectations for durability

## OE CALIPER COMPONENTS FOR SERVICE

- OE brake high performance calipers are usually serviced at a caliper component level. Caliper components, such as pins, seals, boots, pistons, etc. are validated with the OE brake caliper assembly to meet GM durability, corrosion, and sealing requirements
- OE brake high performance caliper components are often finely tuned as part of a caliper assembly to balance many performance attributes
- By utilizing OE caliper components to service an OE caliper, your customer can expect that the caliper assembly will function to the high level under which it was validated by GM

## HIGH PERFORMANCE BRAKE CALIPERS

- OE aluminum brake calipers have class leading corrosion protection with anodizing to prevent cosmetic and functional corrosion failures
- Painted variants are extensively validated to meet GM appearance and finish requirements that are resistant to cleaning solvents
- OE high performance brake calipers are extensively validated for the extreme temperatures, pressures, and speeds presented by race-track usage
- Aftermarket parts do not have to meet GM engineering requirements for durability, corrosion protection or paint quality
