OE

GOLD

ACDelco Cabin Air Filters are specifically engineered to help provide cleaner air from the outside into the vehicle. As air passes through the filter's electrostatic multilayer inserts, up to 95% of dirt, dust, pollen and other unwanted pollutants (down to 10 microns in size) are caught before entering the cabin through the fresh-air inlet.\*.

(Some ACDelco Gold cabin air filters formerly appeared as ACDelco Professional).

ACDelco GM OE cabin air filters are specifically designed and engineered for your GM vehicle. The true OE part installed during the production of GM vehicles.

- Multi-layer compound media captures large and small particles and provides strength and stability
- Layered construction creates “separated” media, which contains dust and pollen particles, resulting in higher efficiency
- GM-recommended replacement parts for GM vehicles’ original factory components
- The quality, reliability, and durability of GM OE
- Manufactured to GM OE specifications for fit, form, and function

ACDelco Gold cabin air filters are the high quality alternative to GM OE parts backed by General Motors. These cabin air filters are manufactured to meet your expectations for fit, form, and function.

- Highly durable and reliable
- Advanced filter media technology helps keep certain pollutants from entering the interior cabin
- Helps remove most allergens from air entering the ventilation system
- Helps keep bacteria and mold from growing inside the ventilation system
- Available in both carbon and non-carbon paper media
