

FUEL PUMPS

OE

GM Genuine Parts OE fuel pumps are designed, engineered and tested to rigorous standards, and are backed by General Motors. GM Original Equipment fuel pumps are the true OE parts installed during the production of GM vehicles.

MODULAR & ELECTRIC FUEL PUMPS

Electric pumps are offered in standard turbine or modular assembly as specified for each application.

- 98% application coverage for GM Vehicles, dating back to 1986
- GM-recommended replacement part for your GM vehicle's original factory component
- Electrical connections are designed to help eliminate high resistance due to vehicle vibration
- Designed to optimize pump life and reduce fuel pump noise
- Offering the quality, reliability and durability of GM OE

LIMITED LIFETIME WARRANTY

LIMITED LIFETIME WARRANTY: GM Genuine Parts and ACDelco offer a Limited Lifetime Warranty on specific service parts. General Motors warrants to the purchaser that it will replace these specific Genuine GM or ACDelco parts for all manufacturer defects in workmanship and manufacturing. Effective on parts purchased as of February 3, 2020 and later to the original retail purchaser. Contact seller for limited warranty part details and qualifications, including any potential warranty on parts purchased prior to February 3, 2020.

HIGH PRESSURE FUEL PUMPS

High Pressure Fuel Pumps are for vehicles with direct injection engines.

- GM coverage for 2007 to current model year
- Engineered for each specific engine type, helping to ensure the proper fit, form, and function
- Mounting gasket and bolts included
- End of line quality tested

MECHANICAL FUEL PUMPS

Mechanical Fuel Pumps are for earlier-model carbureted engines.

- Able to fulfill original equipment specifications on earlier-model carbureted engines
- Mounting gasket included
- GM-recommended replacement part
