

Disc Brake Rotors

GOLD

SILVER

ACDelco Gold Disc Brake Rotors are the high-quality alternative to OE parts. These parts are manufactured to meet expectations for fit, form and function making them a smart choice for General Motors vehicles, as well as most makes and models. These high-quality parts are **backed by General Motors**. (ACDelco Gold formerly appeared as ACDelco Professional.)

ACDelco Gold Disc Brake Coated Rotors provide reliable vehicle braking power and are a high-quality replacement for many vehicles on the road today.

- They feature a thickness variation that is less than 0.0004 to minimize pedal pulsation, noise, and help to extend brake pad life
- COOL SHIELD™ coating – The entire rotor surface including edges and vanes have a baked-on zinc coating for durability and longer lasting protection compared to an uncoated
- Coated Rotors will remain cleaner longer than a non-coated rotor
- The protective micron-thin layer inhibits environmental corrosion better than non-coated rotors as proved in up to 300 hours of industry-standard salt-spray testing.
- These rotors meet the SAE standard for structural integrity with OE matched qualified material delivering guaranteed performance
- Mill balanced; resulting in smooth brake operation and noise reduction
- Follows original manufacturers' designs for dispersing heat, helping to prolong pad and rotor life while reducing noise and vibration

ACDelco Gold Coated Rotor

24 Month/40,000 KM Limited Warranty: Our most common Parts Warranty offers coverage on the majority of our Genuine GM Parts and ACDelco service replacement parts. Effective on parts purchased February 3, 2020 and later to the original retail purchaser. Contact your ACDelco part supplier for limited warranty part details and qualifications.
