

# ACDelco Professional Chassis Parts

ACDelco Professional Chassis parts help give your customers a firm foundation to drive on. ACDelco uses high quality, durable materials for strength and reliability to help give customers outstanding performance.

- High performance engineering often enhances part design
- Coverage to fit most vehicles on the road today
- Limited Lifetime Warranty\*

## **Ball Joints**

1. Housing: One-piece and forged for strength. Shell: Forged, CNC-machined shell for an exacting design and high-quality performance
2. Undergo extreme impact, wear and fatigue testing to help ensure quality and durability
3. A greaseable design for easy maintenance and long life
4. Corrosion-resistant coating for long life
5. Manufactured at TS 16949-certified facilities to ensure consistent high-quality

## **Bushings**

1. Resistance to high temperatures allows the bushings to withstand heat from exhaust systems
2. Also available - standard and high-temp radius arm bushing kits

## **Control Arms**

1. Painted/E-coated to help with rust prevention
2. Uses the same materials as the original equipment manufacturer
3. Premium materials for performance and longevity
4. Premium Advanced Technology product is used on Fleet and Light Truck applications

## **Drag Links/Center Links**

1. Coated for corrosion resistance and long life
2. Shell: Forged, CNC-machined shell for high-quality and strength
3. Greaseable design for easy maintenance and long life where applicable
4. Case-hardened studs and rolled threads
5. Undergo extreme impact, wear, and fatigue testing to help ensure quality and durability
6. Heat-treated forgings for durability
7. Constant-torque pivot joints for improved performance

\*Parts only. Warranty to the original retail purchaser. Installation not included. For more information, see your ACDelco parts supplier.

**ROADSIDE ASSISTANCE** is available to the customer if the repair is made at an active ACDelco Professional Service Centre (PSC) or ACDelco Automotive Care Expert Program (ACE) Member facility.

**PLUS** PSC Accounts qualify for the new Consumer Assurance Labour Reimbursement program (see complete guidelines/effective March 15, 2015).

### Pitman Arms

1. Stud: cold-formed manufacturing to maintain very close tolerances
2. Bearing: One-piece design helps eliminate side-to-side play
3. Corrosion-resistant coating for long life
4. Forged arm for enhanced strength and durability
5. Greaseable design for easy maintenance and long life
6. Undergo extreme impact, wear and fatigue testing to help ensure quality and durability
7. Manufactured at TS 16949-certified facilities to ensure consistent high-quality

### Idler Arms

1. Stud: One piece, forged for strength and fatigue resistance. Uses cold-formed manufacturing to maintain very close tolerances
2. Dust Boot: Helps prevent contamination and maintains lubrication
3. Bearing: Low-friction for ease of rotation
4. Greaseable design for easy maintenance and long life
5. Precision-machined for long life and excellent performance
6. Corrosion-resistant coating for long life
7. Undergo extreme impact, wear and fatigue testing to ensure quality and durability
8. Manufactured at TS 16949-certified facilities to ensure consistent high-quality

### Sway Bar Links

1. Less wear, longer life, greasable cold-forged rod for superior strength and stability.
2. Full-ball stud with a larger wear surface for extended life.
3. Wrench-flats for easy installation.

### Tie Rod Ends

1. Full ball stud
2. Dust Boot: Pre-installed and permanently attached to help reduce contamination. Polyurethane helps resist cracking, splitting and dry rot
3. Bearings: Low-friction double bearing for high impact resistance
4. Coated for corrosion resistance
5. Greaseable design for easy maintenance and long life
6. Superb strength for durability and consistent torque for smooth operation
7. Undergo extreme impact, wear and fatigue testing to help ensure quality and durability
8. Manufactured at TS 16949-certified facilities to ensure consistent high-quality

**ACDelco offers a complete line of high-quality aftermarket Chassis components for nearly every vehicle on the road.**

**Refer to ACDelco's online parts catalogue for the most up-to-date applications and a complete product line-up, including ACDelco Advantage Chassis Parts.**
