Learning Management System

ACDelco's Learning Management System (LMS) offers single source access for training 24/7.

What is it?

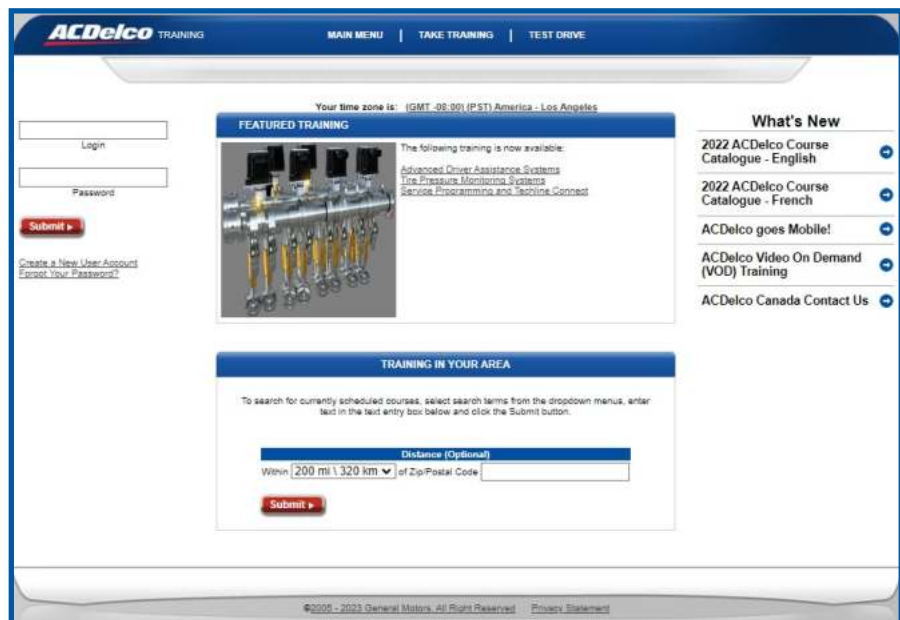

The ACDelco LMS delivers a global, single point of access for training for all personnel. The LMS is an easy-to-use, web-based application that streamlines the delivery and administration of the training program. Its many features reduce overall training costs and maximize employee time on the job.

What can it do?

- Offers a web-based, single point of access to training courses and student history
- Contains simple navigation that flattens the learning curve for Web-Based Training (WBT)
- Permits access to comprehensive training materials
- Tracks learner progress
- Ensures security of data

The ACDelco LMS enhances the ability to improve organizational skills and performance, without reducing employee productivity. It provides the strong foundation needed for any learning program.

If you have any questions or would like any additional information, contact your ACDelco Representative or the Help Desk at (800) 825-5886, prompt 3.

Access the ACDelco LMS:

1. Open your Internet browser
2. Type the following into your address bar:
techconnectcanada.com
3. Click on the Training Login

Tip:

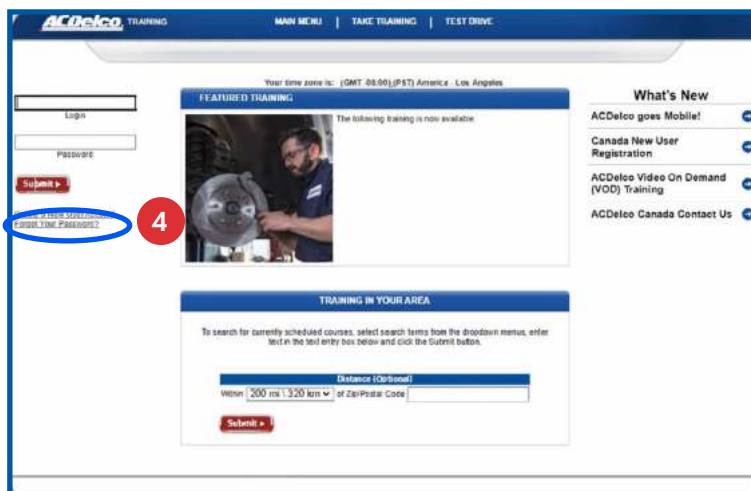

If you are an ACDelco program member, you must know your six-digit account number to register. If you don't know it, ask your manager or ACDelco rep.

Arrive at the ACDelco LMS login page.

Create an Account:

4. Click on **Create a New User Account**.

5. Complete the New User form.

ACDelco TRAINING MAIN MENU | TAKE TRAINING | TEST DRIVE

New User 5

If you require assistance: Contact the Help Desk between 8 AM and 5 PM EST. For Canada dial 1-800-26-Delco or send inquiries to the ACDelco Help Desk at ACDelco.Learning@TrainingSupportAdmin.com

Please select a Province and enter an Organization Code.
NOTE: The Province you select must match the Organization Code you enter!

Province:

Organization Code/Account Number:

Last Name *

First Name *

Middle Name

Every user must select a unique Login ID. It should be between 6 and 15 characters long and contain only alpha (A-Z, a-z) or numeric (0-9) characters.

Login ID *

Please provide a valid email address. Training notifications will be sent to this email address. Click [here](#) for help checking your spam filter settings.

E-mail *

Confirm E-mail *

Preferred Language *

Training Path *

Time Zone *

Automatically Adjust for Daylight Savings * Yes No

Date Format *

©2005 - 2023 General Motors. All Right Reserved Privacy Statement

6. Click **Submit**.**Tip:**

After registering, you will be prompted to change your password right away. Remember to write down your log-in ID!

7. The system will generate a password for you, but you will be prompted to change it.
8. Create a new password.
9. Select and answer 2 security questions.

10. Read the Personal Information statement.

11. Select I consent or I do not consent.

- Selecting I consent completes the User Application and automatically logs you in to the LMS.
- Selecting I do not consent will cancel the New User Account application.

Your time zone is: [\(GMT -08:00\) \(PST\) America - Los Angeles](#)

Please change your password. Your password should be 6 to 10 characters long and contain a combination of letters and numbers. Apostrophes and special characters are not allowed in any of the fields.

All fields required.

New Password: **8**

Confirm New Password:

Please enter two questions and answers below to allow you to reset your password in the future. Do not use apostrophes or special characters.

Question 1:

Answer 1:

Question 2: **9**

Answer 2:

Before you provide your personal information, please read the text below.

I understand that the information I provide on this website, including but not limited to, my name, employer, email address, information about courses I take such as course name and results achieved, and survey information that may include my opinions and observations (hereafter "Personal Information"), will be made available to General Motors Corporation ("GM") and its various related entities and may be /made available to the GM business entity in your country, (hereafter "GM Entities"). I further understand that my Personal Information may also be disclosed to suppliers of GM Entities, but solely for the purpose of providing services related to my use of this website. I am aware that GM Entities and their suppliers are domiciled in various countries, many of which do not have the same data protection laws as those of my country.

GM has informed me that:

10

- My Personal Information will be used by GM Entities for business purposes only and, unless required by applicable law, will not be made available to any third party for its independent use;
- GM Entities will exercise due care with respect to the security of my Personal Information; and
- I may access my Personal Information in accordance with applicable law and established procedures for the purposes of updating, correcting, or deleting it by contacting the ACDelco Help Desk.

Based on the above, I explicitly consent to the collection, transfer, storage and use of my Personal Information by selecting "I consent" below. I recognize that if I select "I do not consent" I will be unable to access courses and other training materials through this website and will have to contact the ACDelco Help Desk for any available alternatives.

(Please address any questions or concerns about this to ACDelco Help Desk)

ACDelco Training Approach

ACDelco's approach to training combines a variety of proven training delivery methods to ensure the maximum learning benefit for the service professional. In addition to traditional instructor-led technical training courses, a wide selection of online courses are also available. Online courses offer the latest available business & technical updates right at your fingertips.

Descriptions of the various delivery methods are detailed below.

Online Training

Each course is available to program members only. To join the ACDelco banner program visit Techconnectcanada.ca or contact your ACDelco representative for more information.

WEB-BASED TRAINING courses range from 1-2 hours in length. Content is presented through voiceover narration, on-screen text, graphics, animations and videos. Technicians are tested on their progress frequently by completing activities and tests.

VIDEO ON DEMAND courses offer technicians the ability to view previously recorded content at any time. These videos are searchable, include the ability to navigate through specific topics, and are now compatible with mobile phones and tablet devices.

TECHTUBE VIDEOS are short videos that focus on specific diagnostic procedures. Typically 3-7 minutes in length, these brief instructional videos offer a quick and convenient way to view various topics of instructional interest.

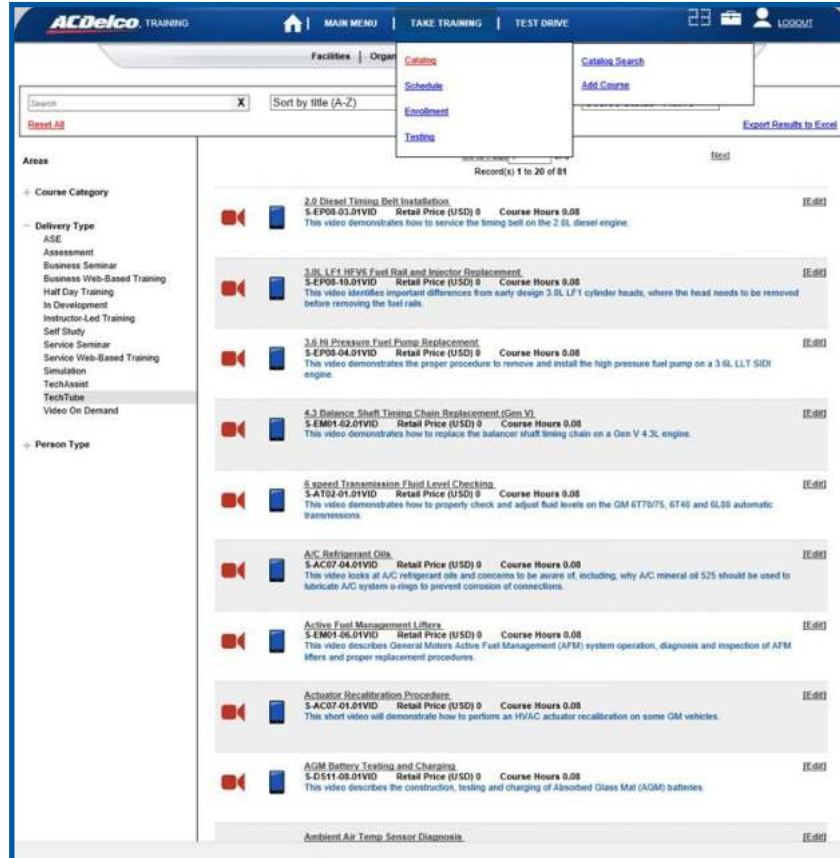

EMERGING ISSUES are a series of monthly seminars designed to keep the service technicians up-to-date on current issues. Each seminar will feature a major service topic, supported by engineering and service experts. Regular segments include: Top Stories, Featured Topic, What's Hot for Cars, What's Hot for Trucks, Powertrain, Back to Basics and Fix It Right the First Time, and tests.

Courseware pricing is dependent upon program participation. Contact your ACDelco representative or visit techconnectcanada.com for more information.

Searching for Courses

To search for courses, click on the **TAKE TRAINING** menu, and then **Catalog > Catalog Search**. Use the menu on the left to search for courses by Category, Delivery Type, or Person Type.

If you are not a current user or need help with your user ID and password, contact **your local Technical Services Manager** between 8:00 a.m. and 5:00 p.m. (EST).

Web-Based Training

Web-Based Training courses are typically 1-2 hours in length. Content is presented through voiceover narration, on-screen text, graphics, animations and videos. Technicians are tested on their progress frequently by completing activities and tests.

Video on Demand

Video on Demand (VOD) allows technicians to review previously recorded content on the Learning Management System (LMS) at any time. VOD courses include component specific overviews and service information. VOD courses also include monthly Service Know How Emerging Issues broadcasts from 2012 to current. This series of monthly broadcasts is designed to keep the service technicians up-to-date on current issues. During each 60-minute session, current GM service bulletins and warranty issues will be highlighted for technical awareness. Each session will feature a major service topic, supported by GM engineering and service experts. Regular segments include:

- Top Stories
- Featured Topic
- What's Hot for Cars and Trucks
- Powertrain
- Back to Basics
- Fix it Right the First Time

Additionally, technicians are encouraged to ask questions and suggest topics via email

TechTube Videos

ACDelco TechTube videos are short, vignette-style videos (typically 3-7 minutes) that are focused on specific technical procedures. These brief instructional videos offer a quick and convenient way to view various topics of instructional interest and value. Browse for videos today by accessing the training catalog on acdelcotraining.com.

TechTubes are also tablet and smart phone compatible!

Emerging Issues

This series of monthly seminars is designed to keep the service technicians up-to-date on current issues. Each seminar will feature a major service topic, supported by engineering and service experts. Regular segments include: Top Stories, Featured Topic, What's Hot for Cars, What's Hot for Trucks, Powertrain, Back to Basics and Fix It Right the First Time.
