

Premium XAGM Batteries

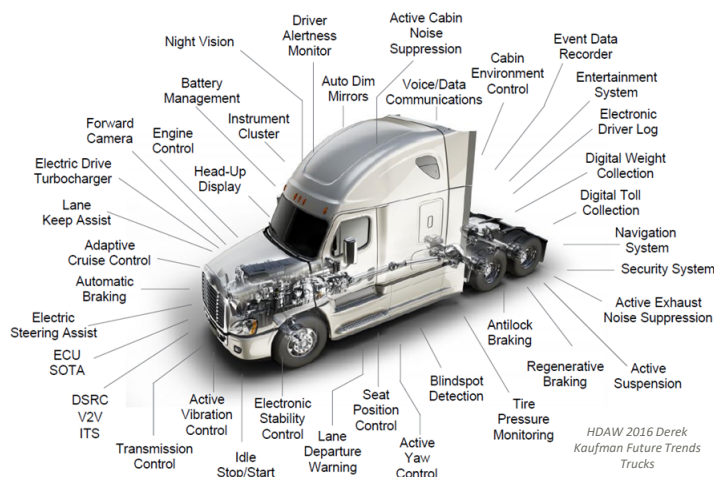

For high electrical load Heavy Duty Applications

GOLD

ACDelco introduces our new line of Premium Absorbent Glass Mat (AGM) batteries with enhanced materials and construction for enhanced power, performance, and endurance compared to traditional lead acid batteries. ACDelco XAGM batteries deliver high levels of both cranking power and cycling capability, making them a perfect match for today's Heavy Duty vehicles with increased electrical demand from the numerous modules, sensors, and electrical options.

ENHANCED Performance and Construction

- ACDelco's XAGM batteries provide **twice the overall power** and **three times the life** compared to traditional batteries
- **99% pure lead plates** combined with **high purity electrolyte** virtually eliminate internal corrosion for longest shelf and service life
- Thin plates with specially controlled fine particle paste provide more cranking **AND** more deep cycle capability within the same size case
- **Lead/Tin coated brass terminals** with robust construction and O-Ring seals helps ensure secure, corrosion-free high durability connections
- **Thick full cast over the wall Inter-cell connections** provide maximum durability and conductivity and provide more space per cell for more power within the same size case
- **PET/Polycarbonate blend case** – Stronger than typical battery cases made of polypropylene to help protect against both high-impact shocks and constant vibration

BIG Benefits

- **Longer service life** – ACDelco XAGM series batteries offer 3 to 5 times longer service life than conventional batteries, not to mention time and hassle of premature failures
- **Longer cycle life** – 70% longer cycle life versus conventional deep cycle batteries
- **Deeper cycling** – Up to 400 cycles at 80% depth of discharge for amazing performance longevity
- **Faster recharge** – Higher recharge efficiency than other sealed lead acid battery in the market
 - Capable of 90% recharge in under 40 minutes
 - 100% recharge in only 4-6 hours

Battery Cell Comparison

*Free replacement limited warranty to the original retail purchaser. See acdelcocanada.com for details.
